THERAPY TEAM

The Critical Early Years.

An Intervention for Lifelong Success

The early childhood years form the cornerstone of a fulfilling life. Small developmental delays, when not addressed in a timely fashion, can evolve into significant obstacles.

At Integrated, we believe in proactively identifying and addressing these challenges early on.

We understand how challenging it can be to create a cohesive plan of action and are here to assist you in finding the correct path.

OUR MISSION

At Integrated, our mission is to provide effective support for children with developmental and behavioral needs while keeping them engaged in mainstream settings.

collaborative strategies

Our team collaborates closely with teachers and therapists to execute personalized educational and therapeutic plans. This united effort allows us to implement a comprehensive strategy throughout a child's day, from the classroom to the playground and even at home, ensuring consistency and optimal outcomes.

OUR COMPREHENSIVE APPROACH

our programs.

Parent Guidance

Our Parent Guidance program will enhance your ability to support your child's unique needs. We offer emotional support, education, and practical resources that empower you to give your child the support they need. From navigating services systems to reinforcing therapy goals at home, we're here to ensure you have the knowledge and confidence to make decisions that foster your child's success.

In-Class Mainstream Services

Our In-Class Mainstream Services blend specialized educational strategies with emotional support to ensure your child excels in a mainstream setting. This includes tailored ABA, Speech and Language, and Occupational Therapies. Our skilled specialists work hand-in-hand with teachers to create an inclusive atmosphere that addresses developmental language, play skills, and sensory processing.

Self-Contained Classrooms

Our Self-Contained Classrooms are sanctuaries where your child can explore, learn, and grow at their own pace, surrounded by expert educators and therapists who believe in their potential. Staffed by experts in ABA, DIR Floor Time, and other therapeutic disciplines, these classrooms focus on each aspect of a child's development—language, play, sensory integration, and social-emotional skills. Here, every child is seen as an individual with unlimited potential, and every activity is designed to nurture their strengths and support their growth in a compassionate, understanding environment.

Home and Offsite Programming

Beyond the confines of traditional classrooms, our Offsite Programming offers unique, real-world experiences that enrich your child's social and life skills. From community-based outings to specialized therapeutic activities, these programs are designed to bring learning to life, helping your child to connect with the world in meaningful ways. We are dedicated to fostering not just academic success, but a well-rounded, joyful individual prepared to embrace the world's challenges.

Step-by-Step Onboarding Process for Therapeutic Services

1

Initial Consultation and Evaluation

After being advised by the school that your child may benefit from therapeutic services, contact our center to arrange an initial consultation. If this consultation suggests an evaluation is necessary, we will promptly schedule a comprehensive assessment with our qualified professionals.

Purpose This step ensures we understand your concerns and accurately identify your child's needs through a detailed evaluation.

2

Development of a Personalized Care Plan

Based on the evaluation results, our team crafts a personalized care plan. We will discuss these findings and the recommended strategies with you to ensure you are fully informed and in agreement with the proposed approach.

Purpose Creating a tailored plan that addresses specific therapeutic goals ensures effective intervention tailored to your child.

3

Insurance Navigation and Financial Planning

Our staff assists you in navigating insurance and financial options to ensure your child's needs are met efficiently and affordably. We handle the complexities of insurance claims and explore all possible funding sources.

Purpose To alleviate the financial burden and facilitate access to necessary therapeutic services without delay.

4

Implementation and Coordination

We match your child with dedicated therapists whose expertise aligns with your child's specific needs. Therapy sessions are scheduled at convenient times, and we ensure seamless integration of these services with your child's school environment by coordinating with school staff.

Purpose This step guarantees a consistent and holistic approach to therapy that spans both home and school, maximizing the effectiveness of the interventions.

5

Ongoing Support and Communication

We maintain continuous communication with you, providing regular updates on progress and making adjustments to the therapy plan as needed.

Purpose To ensure lasting success and improvement in your child's development, encouraging family participation and adapting strategies to meet evolving needs

each program at Integrated is meticulously designed to honor each child's unique journey.

We integrate advanced therapeutic methods and educational strategies that surpass developmental milestones in language, play skills, sensory processing, social-emotional development, and behavioral support.

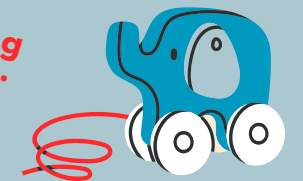

By focusing on developmental language, we establish clear channels for effective communication, empowering children to articulate their thoughts and needs confidently. Improving play skills equips children with essential tools for cognitive and social interaction, fostering abilities crucial for lifelong success.

sensory processing

Our emphasis on sensory processing aims to help children manage daily sensory stimuli, reducing anxiety and enhancing overall well-being. Central to our approach is nurturing social and emotional development, providing children with the emotional intelligence vital for personal and academic achievement. We guide children in understanding and regulating their emotions, fostering empathy and resilience.

Addressing behavioral challenges involves tailored strategies that promote positive behaviors, enhancing academic and social experiences while nurturing self-awareness and confidence. Through these targeted efforts, Integrated ensures each child not only experiences growth and learning but also embarks on a path to a joyful, productive, & fulfilling life.

*dedicated to supporting
your child's journey.*
